March 29, 2010

Dear Officials:

I am writing to protest the rate increase application that SCE & G has recently made to your office. Prior to this increase my utility rates had already gone up and I am baffled as to why it is necessary to again raise rates so soon .

Rate increases such as these put a great burden on myself and other residents of Columbia and create a situation where we have to make choices about basic needs for ourselves or paying higher utilities.

I do believe that executives of this corporation acquire profits and live far more comfortably than I ever could. One has only to look at their residences and then mine to see the great variance. Therefore, I do not believe these rates need to be raised. I do believe that the customers are at a great disadvantage while the executives continue to prosper.

Could it be that the present rates could be applied in a more effective and wise way so that we would not have to bear the consequences of this rate increase?

Cordially,

Jeffrey G. Newman
